What is the decisive factor in choosing a Piano . . .

## Unique 5,000 Precise Parts

An upright Piano is composed of as many as 5,000 precise parts. Each and every part is indispensable to support and maintain the elaborate piano mechanism. Every part is carefully built with the highest excellence in quality. These unique and perfect parts are dedicated to only one purpose; "Creation of Beautiful Sound" which can be said is the essence of Pianos.

KREUTZER has inherited the history and tradition of Piano manufacturing in Europe, which is the birthplace of the Piano, and is continuing to manufacture Pianos rich in musicality and artistry. Kreutzer Piano continues to engage excellent technical experts and experienced artisans demonstrating their knowledge and skills, in order to provide quality to those who love Piano's.
